

European Robotics Forum 2015
Session: Space Robotics

Session
Space Robotics

14h00 - 15h30

European Robotics Forum
Vienna, Austria
11-13 March 2015

European Robotics Forum 2015
Session: Space Robotics

Program

14h00 – 14h15	Space Robotic Missions Bernd Sommer, DLR, Germany
14h15 – 14h30	Space Robotic Systems Javier Rodriguez Gonzalez, CDTI, Spain
14h30 – 14h45	Space Robotic Technologies Gianfranco Visentin, ESA ESTEC, The Netherlands
14h45 – 15h00	PERASPERA Roadmap and Spin-In/Spin-Off Potential Lee Boland, UKSA, United Kingdom
15h00 – 15h30	Discussion

PERASPERA

European Robotics Forum 2015
Session: Space Robotics

Discussion topics

1. Interfaces between terrestrial and space robotics / effective networking and complementary roadmaps ?
New impulses through know-how transfer between Space-Robotics and terrestrial disciplines ?!
2. G2S versus S2G versus S2S business ! Business today and tomorrow – what is possible?
Gaining full benefits of space robotics capabilities requires cooperative mission and S/C design ?!
3. Competitiveness of Europe's space robotics technology - what steps have to be done in Europe in the field of space robotics?
4. www.h2020-peraspera.eu
